Dear JERICHO Fans and Friends,

Many of you have posted here that you're curious about how we are taking the cancellation and why we haven't posted anything in these boards. The fact is that most of us are devastated. I wouldn't dare try to speak for all of the cast and crew, but I can tell you that I've spoken to or exchanged e-mails with about 50 people from the JERICHO family and we are shocked and depressed by the networks decision.

I've been doing this kind of work for almost twenty years and I have never encountered a kinder, funnier, more dedicated and professional cast and crew in all of that time. One of our grips told me that in 33 years on the job he was never happier to leave his family and go off to work. It has been, unequivocally, my best professional experience.

Your support throughout the season and particularly since the cancellation has been very, very gratifying. You guys rock!

I know you never wanted Gray to be your Mayor, but I loved every minute of it!

Thank you all,

Michael Gaston
