hey all.

I'm stunned. I'm blown away. I'm amazed.

I have been on many shows, and met many amazing fans, but i have never, ever experienced this kind of support from a fan base. First, I would like to thank all who supported the character of Heather and her journey on the show. I believe that thank you is LONG overdue. Second, I would like to extend that thank you to all the fans of Jericho. Do you know your "Save Jericho" campaign is being compared to the campaign in the sixties to save Star Trek? It's phenomenal.

Jericho was a very special experience for all of us, we were part of a family and we enjoyed every day on that set. Hopefully, somehow, we'll be able to have that experience again. But if so, it will be due to all of you and your refusal to give up.

On a personal note, I have seen many great shows dissappear without a fight. I'm truly, truly honored to be a part of this fight. Thank you, you guys rock! You are making history.

Sincerely and in gratitude,

Sprague Grayden
