I would like to extend a special thank you to everyone responsible for the resurrection of Jericho. This is so cool. To see how everyone interacted to make this happen is awesome. It is truly history in the making. If Dale needs to stock up on nuts he will know where to go and I will be thinking of you when I am stocking the shelves. I wish I could say thank you in every language to acknowledge our international friends as well. You have made me very proud to be part of all of this.

Like you, I will be doing my best to keep Jericho alive.

Your friend,

Erik/Dale
